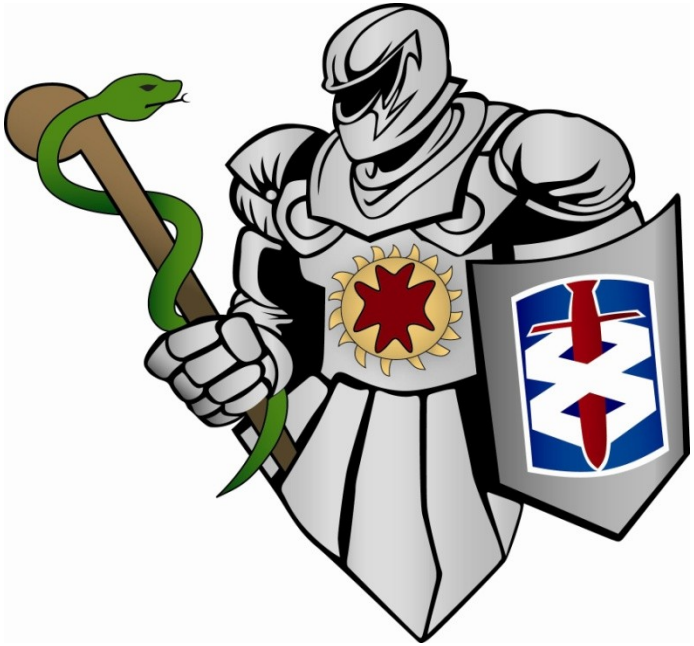
18th MEDICAL COMMAND (DS)



MANDATORY TRAINING

TRAINING COMPLETION NOTES

- If Service Member (SM) can produce proof that training has been completed (Copy of Certificate or Screen Shot “Print Screen” of Test Scores), then
- Bring hard copies with you
- HOWEVER, if SM cannot provide proof of completion of training, SM will have to complete requirements within timelines specified below:
- All On-Line training must be complete
- Remember to print all certificates
  - **(OR USE “PRINT SCREEN” COMMAND TO CAPTURE COMPLETION STATUS IF YOU RUN INTO TECHNICAL PRINTING DIFFICULTIES)**
- Maintain **ORIGINALS** for record

Beware of Phishing!
All AKO/DKO users are asked to be vigilant in combating phishing attacks. Users are reminded that AKO/DKO will never solicit personal or account information by mass email. Recent examples include emails appearing to be from AKO and from commercial sources such as Bank of America. Any email asking you for personal or AKO/DKO account information should always be treated as fraudulent. If you do receive such email, do not respond to it or click any included links found inside. Instead, report the issue to your local IMO and report it to AKO by sending an email to report.abuse@us.army.mil. More information about how to protect yourself from phishing can be found by reading the document "What is Phishing?".

Army Learning Management System (ALMS), an integral component of the **Distributed Learning System (DLS)**, and is the Army's automated system for individual training management. The ALMS delivers training to Soldiers and DA civilians, manages training information, provides training collaboration, scheduling, and career planning capabilities in both resident and non-resident training environments.

For a demonstration on course registration, searching the training catalog or how to launch a course in the ALMS, **CLICK HERE**.

CLICK HERE

TADLP Online

The ultimate goal of The Army Distributed Learning Program (TADLP) is to improve readiness through the delivery of standardized individual, collective, and self-development training to Soldiers and units anytime, anywhere. The major components of TADLP are: Digital Training Facilities (DTF); Distributed Learning Courseware; the Army Learning Management System (ALMS); and the Deployed Digital Training Campus (DDTC).

> Go to TADLP Online

ARNG Online

Training Army National Guard Soldiers involves unique challenges such as geographic dispersion, competing civilian employment demands, and travel costs. These factors adversely impact the number of ARNG Soldiers trained each year. Distributed learning (dL) uses proven technologies and training techniques to overcome some of these challenges, by increasing the number of Soldiers trained at remote locations (unit armories, local digital learning classrooms or in their homes). Distributed learning helps Soldiers and units meet their training requirements and their readiness status.

USACRC Online Learning

Welcome to the United States Army Combat Readiness University. This program inaugurates a long-term commitment to providing quality and timely force protection information across a broad spectrum to support Army needs around the globe. Delivering tools, resources, and training online this system provides user access anywhere in the world 24/7. Content on this site is designed to provide superior decision-making capability to our force. It is a repository for safety education, training, and other career enhancing tools for US Army, civilian, contractor, Department of Defense, and other government agency employees. Feedback from users will help focus future course development and products for the field.

If you can't find what you need, have a good idea, have a problem or are confused with our web site, e-mail us at Dlcoordinator@crc.army.mil or call DSN 558-0232 (334-255-0232), or (334)255-0208 and let us know what you need. We will make every attempt to solve your problem.

Welcome to MHS Learn
The Military Healthcare System's Learning Management System

New!

Scheduled Maintenance

There will be CAC server maintenance on Saturday and Sunday January 12-13th between 2400 - 0300 EST. MHS-Learn System will be unavailable during this time. Please do not attempt any training in this time period.

We apologize for any inconvenience.

New Advisory:

MHS Learn is still moving to a new domain location. The new schedule is migrate in April 2008, to coincide with server upgrades. This link will be the new location for MHS Learn:

https://mhslearn.csd.disa.mil
Until April, this link is actively redirecting to MHS Learn's present location.

Save this new link to your favorites folder.
Once the migration occurs the old link will remain active for 90 days during transition.

New!

The U.S. Armed Forces have a long tradition and solid reputation for producing world-class training. It is well known that training is the key to successful military operations and improved patient care. Continuous access to high quality medically related training is essential for medical readiness and for maintaining a highly skilled workforce.

MHS Learn is a centralized, web-based platform providing the military medical workforce and beneficiary population with a single source for managing, delivering, and tracking all learning.

Today's forces must be trained effectively and rapidly, regardless of whether stationed at home, overseas, or in the theater of operations. MHS Learn offers education and medically related training tailored to individual needs and delivered cost-effectively, anytime and anywhere.

Description

The training courses issue guidance to the military services and commands by instructing policies regarding the care and handling of enemy prisoners of war, detainees, retained persons, and civilian internees.

Three courses; Medical Ethics, Medical Planning and Medical Processing give specific guidance in the overall policy which includes: direction to accurately and completely create and maintain medical records on all detainees: to ensure clear separation of duties between personnel providing healthcare to detainees and behavioral science personl consulting with interrogators; to careful record disclosure of all patient-specific information for lawful purposes other than treatment; to report possible violations of applicable standards for the protection of detainees; and to ensure healthcare professionals have appropriate training regarding the care and treatment of detainees.

When you start the training you may see several pop-up windows:
This page contains both secure and nonsecure items. Do you want to display the nonsecure items? click Yes
A certificate issued by Oracle. Please accept the certificate.

- All sections of the course must be viewed and completed in order to receive credit for this course.

Pre-OCONUS travel File (PRO-File) Step-by-step instruction

HQDA Guidance: All personnel traveling OCONUS are required to complete a DD Form 1833 (ISOPREP). Army personnel will use the Pre-OCONUS travel File (PRO-File) fulfill this requirement. This applies to all military, Army Civilian, and contractor personnel supporting Army forces. Army forces under the Operational Control of USASOC or USSOCOM are exempt from this requirement and will follow USSOCOM guidance to meet the pre-deployment requirement.

PRO-File Survey: The data entered into PRO-File surveys is transferred to the Joint Personnel Recovery Agency (JPRA). Once transferred, the data is used to populate a digital ISOPREP on SIPRnet.

PRO-File is the only approved means for Army personnel to fulfill the digital ISOPREP requirement on Unclassified systems.

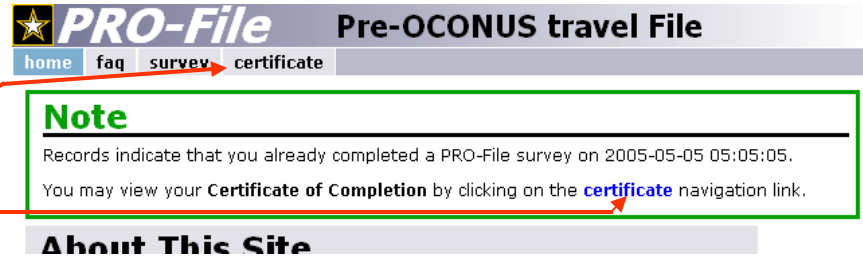
About This Site
Before any soldier deploys or goes on TDY Outside the Continental United States (OCONUS), they must complete a Pre-OCONUS travel File (PRO-File).
Before completing the survey, be sure to review the privacy/security information.
Once you are ready, proceed to the survey.
contact us | privacy/security | conformance:
content updated 2007-04-30

If you have previously completed a PRO-File survey you can retrieve and print your certificate (see slide 20)



In the **privacy/security** section you will find answers to many common questions about the security of this system, and a copy of the privacy act statement pertaining to this program.

Privacy and Security

PRIVACY ACT STATEMENT

Authority: 10 U.S.C. Sections 1501, 1502, 1513; EO 9397.

Sections 1501 through 1513 of Title 10 are the Missing Persons Act provisions and establish general authority for Personnel Recovery. Executive Order 9397 allows the use of SSN for identification purposes.

PRINCIPAL PURPOSE(S): It is essential to the Personnel Recovery effort for the protection of recovery forces from enemy entrapment. The social security number is used to ensure positive identification.

ROUTINE USE(S): It will be completed by Army forces and civilians who may accompany Army forces while deployed in potentially hostile territory. It contains personal information that may be used to ensure positive identification, to facilitate medical treatment, and to assist in reintegration upon recovery.

DISCLOSURE: The information is necessary since it affects the entire Personnel Recovery mission and effect on individual of not providing information could result in delay or failure of recovery effort.

Military Personnel:	Completion of the survey is **mandatory**.
Civilian Personnel:	Completion of the survey is **mandatory** for all **deploying** civilians IAW Army G-3/5/7 guidance (June 2005). If you do not agree to voluntarily disclose your information, notify your supervisor to request alternate means of fulfilling this requirement.

Data Entry

Mandatory fields are marked with a red asterisk (*) – the form can not be submitted unless they are all filled-in. Also stress that fields marked with a blue tilde (~) provide vital information and should be completed to the best of their ability.

Photo file criteria:

- Photo file types: png, gif, bmp, jpg
- Max file size: 200Kb
- Pixel Minimum: 50x50, Maximum: 1000x1000

Front-facing photo can be any full-face picture which depicts a chest-up view and natural hair color. Hats or sunglasses are not acceptable. Prescription eyewear should not be worn.

Profile-view photo can be any side-view photo which clearly displays facial features and natural hair style and color. Hats or sunglasses are not acceptable. Prescription eyewear should not be worn.

Both photos should present a predominant view of the head without obstruction and be less than one year old

Provide any necessary additional information

Contractor Company Info

If you are a contractor ☑ check this box.

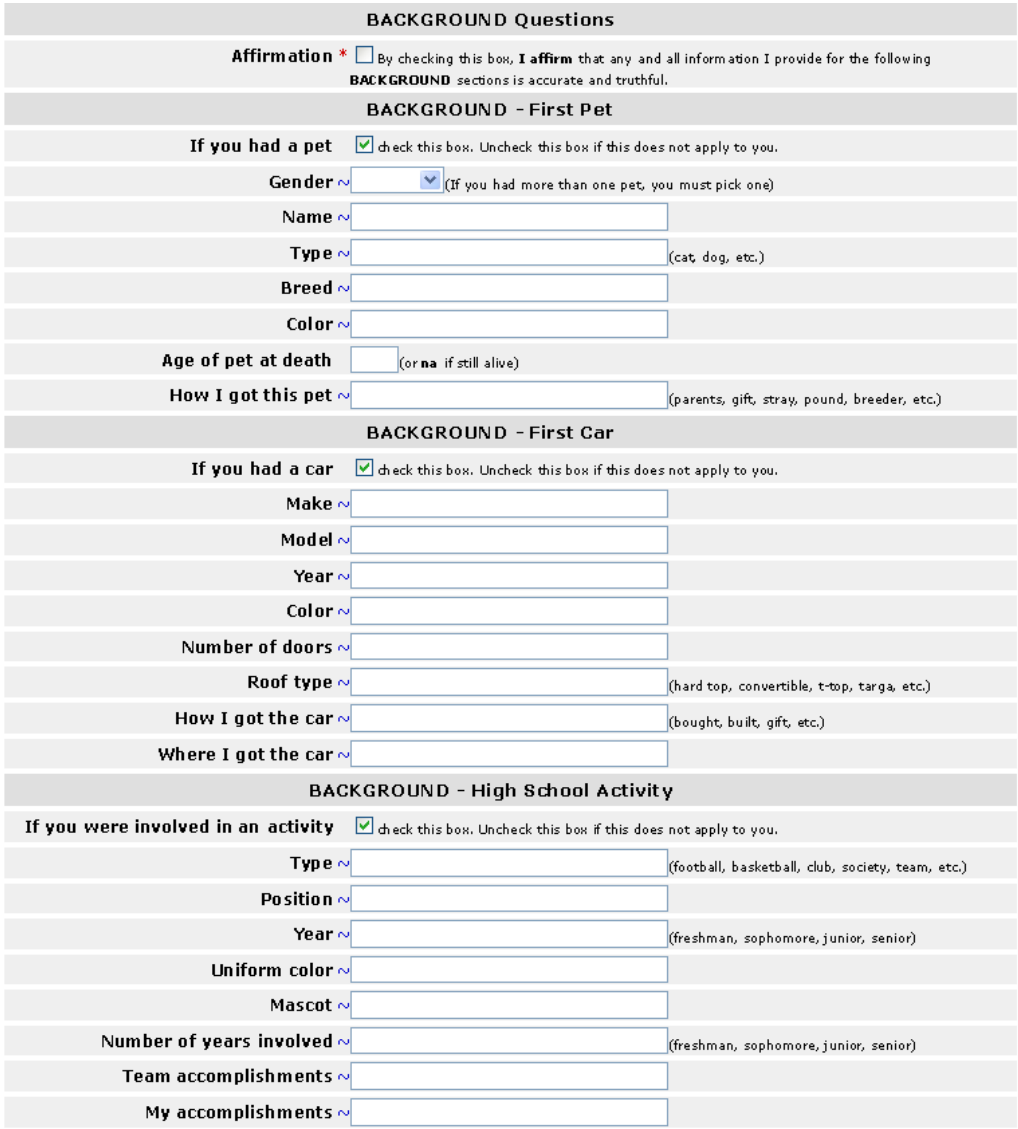
Company Name *

Company POC ~

0 out of 250 characters max.

Data Entry

- Entries in these sections are used to develop identification data for Personnel Recovery Reports
- If a section applies, place a check in the box at the beginning of the section. If not, box should be de-selected and all entries will default to closed position.
- **If you are unable to complete at least four of the six sections, contact your PRO or PR manager to complete your file in PRMS.**



BACKGROUND Questions	
Affirmation *	☐ By checking this box, **I affirm** that any and all information I provide for the following **BACKGROUND** sections is accurate and truthful.
BACKGROUND - First Pet	
If you had a pet	☑ check this box. Uncheck this box if this does not apply to you.
Gender ~	(If you had more than one pet, you must pick one)
Name ~	
Type ~	(cat, dog, etc.)
Breed ~	
Color ~	
Age of pet at death	(or **na** if still alive)
How I got this pet ~	(parents, gift, stray, pound, breeder, etc.)
BACKGROUND - First Car	
If you had a car	☑ check this box. Uncheck this box if this does not apply to you.
Make ~	
Model ~	
Year ~	
Color ~	
Number of doors ~	
Roof type ~	(hard top, convertible, t-top, targa, etc.)
How I got the car ~	(bought, built, gift, etc.)
Where I got the car ~	
BACKGROUND - High School Activity	
If you were involved in an activity	☑ check this box. Uncheck this box if this does not apply to you.
Type ~	(football, basketball, club, society, team, etc.)
Position ~	
Year ~	(freshman, sophomore, junior, senior)
Uniform color ~	
Mascot ~	
Number of years involved ~	(freshman, sophomore, junior, senior)
Team accomplishments ~	
My accomplishments ~	

The Army's PR philosophy is one of leadership and accountability.

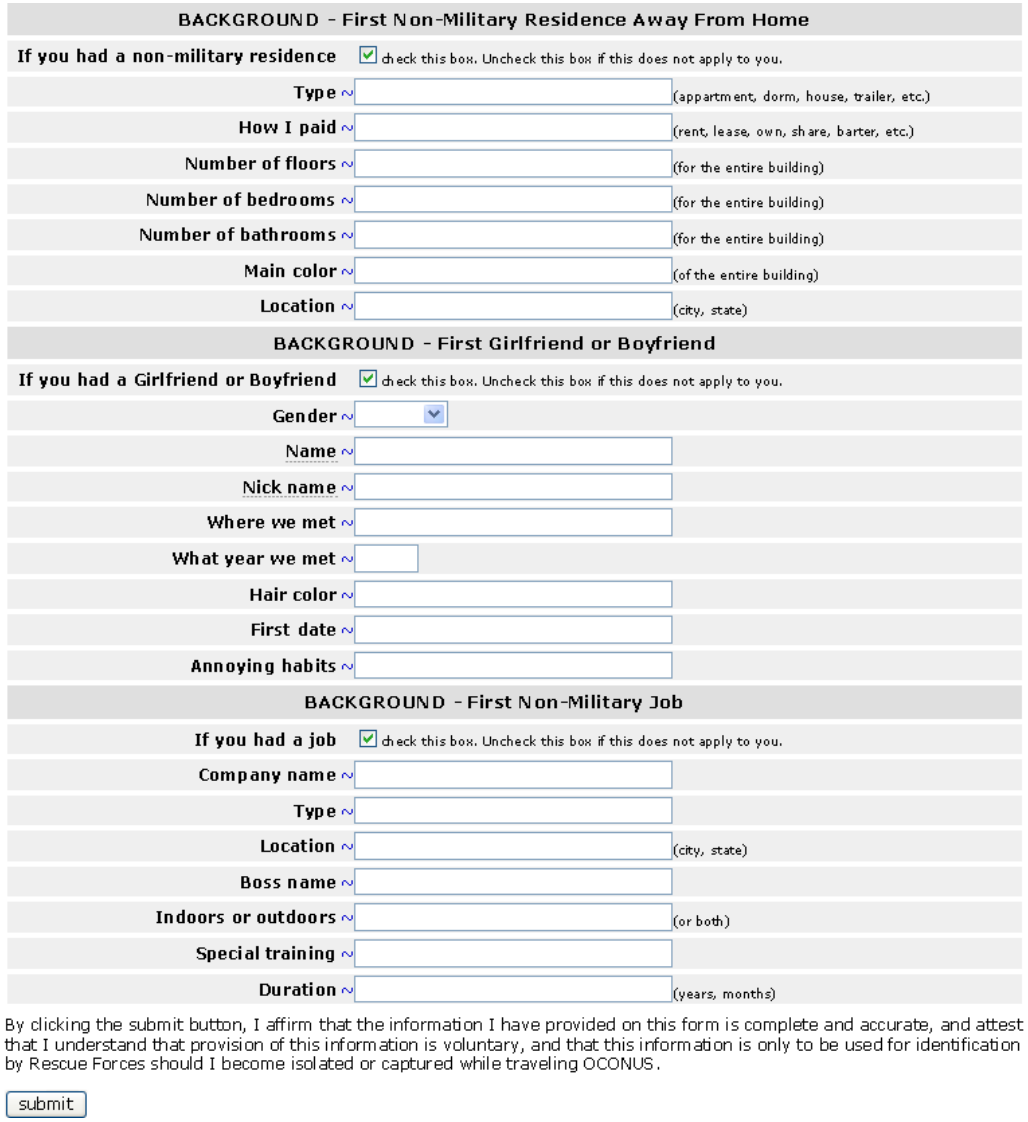
FM 3-50.1

Data Entry

- Entries in these sections are used to develop identification data for Personnel Recovery Reports

- If a section applies, place a check in the box at the beginning of the section. If not, box should be de-selected. **Once again, if unable to complete at least four of the six sections, contact your PRO**.

- Commanders must ensure all assigned Soldiers, DA Civilians, and Contractors understand that entry of accurate and up-to-date data is critical to successful recovery operations in the event that they become Isolated, Detained, Missing, or Captured.



BACKGROUND - First Non-Military Residence Away From Home

If you had a non-military residence	☑ check this box. Uncheck this box if this does not apply to you.	
Type		(appartment, dorm, house, trailer, etc.)
How I paid		(rent, lease, own, share, barter, etc.)
Number of floors		(for the entire building)
Number of bedrooms		(for the entire building)
Number of bathrooms		(for the entire building)
Main color		(of the entire building)
Location		(city, state)

BACKGROUND - First Girlfriend or Boyfriend

Data Entry

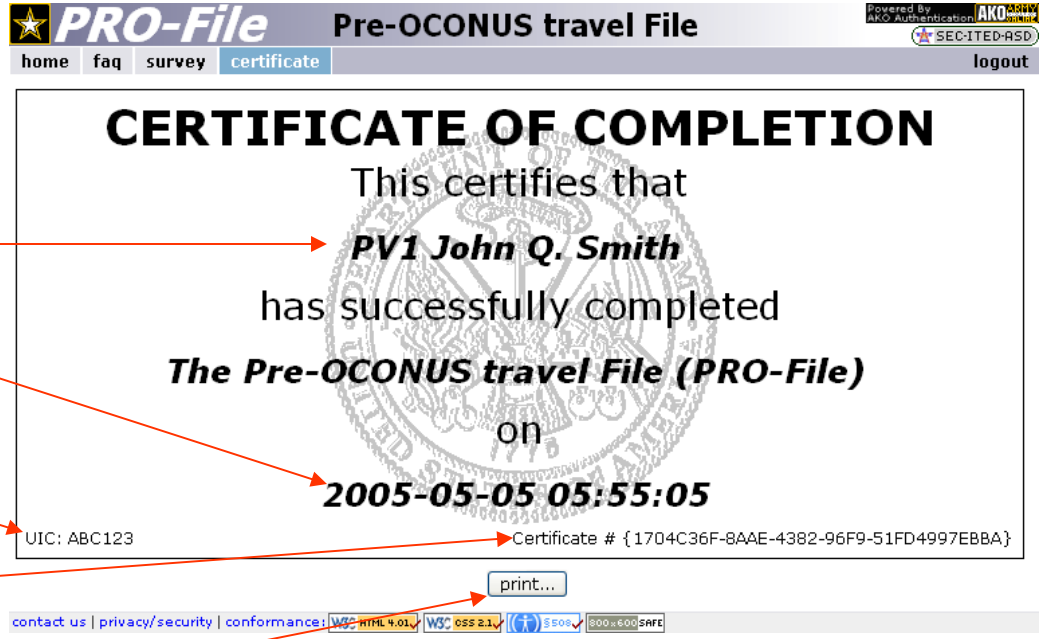
- After successful data entry the program will display a certificate for the user
- Certificate will include your name, your UIC, and the date-time-group of completion
- PRO-File will automatically generate a unique certificate number for the session
- This certificate should then be printed and presented to the user's supervisor or PRO

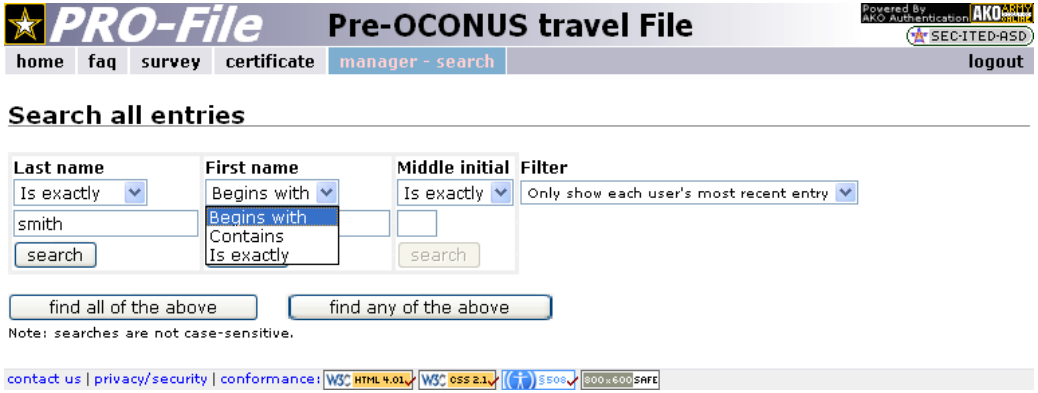


Users without a printer available at their location can screen-capture or print to a file and then e-mail the file to their supervisor/PR Manager

Submitted information **can not** be retrieved by the individual. To reproduce certificates return to log-in screen and select certificate from the tabs at the top of the page.

PRO-File Manager Search

- A variety of searches may be performed



Search functions are available to all users E-6 and above

- Note: searches will only return results for those people that have entered a survey – there is no information about users that have not yet used the system.

PRO-File Manager Search Results

- The results can be sorted by clicking on any column header
- The column that determines the sorting is indicated by a down or up triangle
- The **dur** column shows approximately how long the user took to complete the survey, in hours:minutes
- The **Completion** column indicates how many **Background Sections** the user completed, with “Full” indicating they completed 4 or more sections. Any user that is not listed as “Full” must submit a new survey, or complete the information using SIPRNet PRMS

- Note: searches will only return results for those people that have entered a survey – there is no information about users that have not yet used the system.

Note that this is the only information stored on the PRO-File system. All other survey data is stored on the PRMS system.

Frequently Asked Questions

- Where did the requirement for PRO-File come from, and who authorized the program?

  Completion of ISOPREPs has been a pre-deployment requirement since the beginning of the Global War on Terror. PRO-File was developed to make it easier to meet this requirement and standardize the format across the force. Authorization came from the Chief of Staff of the Army, through the Army G-3/5/7 to increase Personnel Recovery capability.

- I am a tactical commander with thousands of troops to manage. What benefit does my command receive from participation in the PRO-File program?

  First and foremost your command will no longer have to spend additional time and effort to manage the classified ISOPREP forms which the PRO-File program will replace. The new system automates the entire process. This gives back time to your Soldiers for training and preparation for their METL tasks. PRO-File is also the first tool for this purpose available to every Soldier, regardless of security clearance or duty assignment, that can be completed at home or in their barracks. Also, use of PRO-File and PRMS enhances the capability to successfully recover your Soldiers regardless of their geographic location or OPCON/TACON status.

- I only have 90 training days left until my unit deploys. Why should I shift focus to filling out online surveys when my Soldiers should be conducting tactical training?

  Your Soldiers can complete the survey at home, on leave, or from a local internet café. PRO-File was developed with your command's time management in mind so that you can continue with your training plans without significant impact.

- If I allow my Soldier's to do this on their off-time, how will I track their completion for pre-deployment?

  Your PRO or PR staff-section has the ability to track, by-name, who in your command has or has not completed a survey within a five minute window of accuracy. Each Soldier also receives a completion certificate which can be filed in their training records and into their Digital Training Management System (DTMS) in AKO.

Frequently Asked Questions

- I don't have a digital photo. Can I submit my survey without one?

  Current photographs are critical for recovery forces to positively identify you if you are isolated. You must provide digital photographs for the survey.

- I have completed the survey and printed my certificate. Now what do I do?

  Keep a copy of your certificate for your records and then provide a copy to your immediate supervisor or your Personnel Recovery Officer (PRO). You can return to the site any time to print a copy of your certificate.

- How often will I have to complete the PRO-File survey?

  You should only have to complete the survey one time during your military career. PR managers can transfer your data to your gaining UIC when you out-process your losing unit.

- What if my information changes, or I realize that I made a mistake on my survey?

  You have two options to correct information provided to PRO-File. First, you can visit the survey site and complete a new survey. The more preferred method is to visit your PRO who can access and update your survey information in PRMS.

- What can I do if I receive an error when I submit my survey?

  Each error message will automatically be reported to the PRO-File system administrator. Follow the provided e-mail link; they will assist you in completing your survey. Non-technical issues or general questions dealing with command guidance and PR programs should be addressed to your chain of command.
